

Lisa Marie Eidt

Born: 1988

Universität/Fachhochschule: Johannes Gutenberg-Universität, Mainz

Lisa Marie Eidt - | in 15 Words | **Her own real life wonderland where everything is possible and milk and honey are floating**

Biografie

Lisa Marie Eidt grew up in the middle of Germany in a very creative and open-minded family.

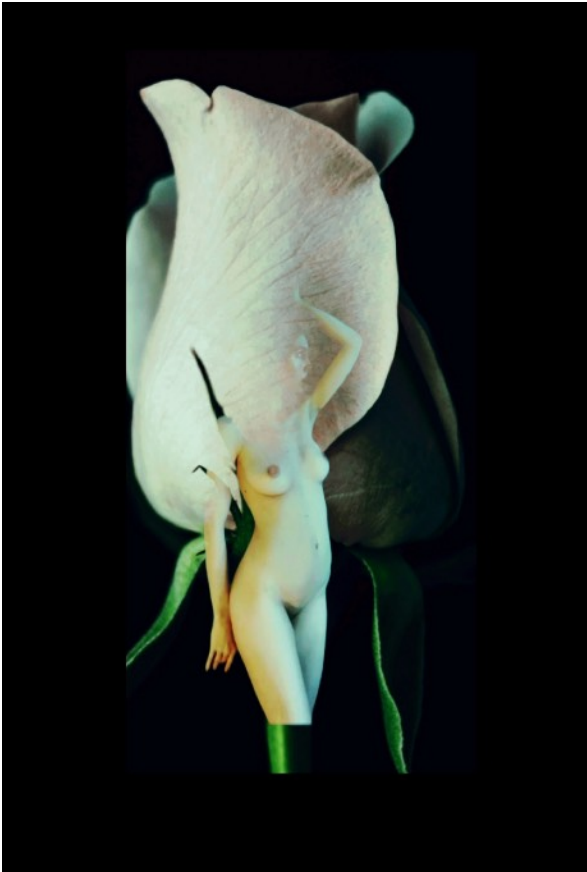

Her whole life she was surrounded by music, art, fashion, eloquence and a playful approach to life. Her talents reach from singing over dancing and improvisation to sometimes writing of poetry or as it is shown now: creating visual art.

She studied media, psychology and German and was always drawn to experiences that celebrate life and extend or reinforce the senses. Clublife dominated her study time and she passionately visited workshops of all kinds.

Out of her longing to find a place where she can fully be and express herself she found the idea of The Magic Retreat. Her own real life wonderland where everything is possible and milk and honey are floating.

Now she presents her art in this space. Fusions of photography and digital art melting into a world of her own. Something that can't be explained, but must be felt.

Welcome to The Magic Retreat.
